## SUMMARY

---

Experience as a Software Developer at Pranav Consultant and as a Software Tester at AGILE Infoways has significantly enhanced my development and programming skills. At Pranav Consultant, I led the design and development of web applications, which resulted in a 25% increase in user engagement and a 15% growth in conversion rates. I utilized modern web technologies to create responsive and high-performance solutions. At AGILE Infoways, I collaborated with cross-functional teams to address key issues and stabilize the system. My expertise extends to both creating high-quality software and ensuring its reliability, showcasing strong development, coding, and problem-solving skills.

## EXPERIENCE

---

### Software Tester

*AGILE Infoways*

Nov 2022 – Aug 2023

*India*

- Conducted manual and automated testing for multiple software products, ensuring quality and functionality.
- Collaborated with developers and product managers to identify and resolve software issues, improving overall system stability.
- Participated in Agile development processes, including sprint planning and daily stand-ups, to deliver timely updates.
- Identified critical bugs and worked with the development team to resolve them, enhancing system performance by 20%.

### Software Developer

*Pranav Consultant*

Sept 2020 – April 2022

*India*

- Led the development and design of the Pranav Consultant website, employing modern web technologies and responsive design principles.
- Developed and maintained 8 web applications, resulting in a 25% increase in user engagement and a 15% growth in conversion rates.
- Implemented social media integration, leading to a 40% increase in website traffic and a 30% growth in user interactions.
- Optimized the website for search engines (SEO), resulting in a 35% improvement in search engine rankings and a 20% increase in organic traffic.
- Participated in code reviews, identifying and fixing 15 critical bugs, improving code quality by 20%, and enhancing system performance by 25%.
- Collaborated with clients and stakeholders to understand their needs, contributing to effective project planning and execution.

### **Spotiweb - Web Application** | *HTML, CSS, Javascript*

Mar 2024 – Present

- Implemented API calls to retrieve data dynamically.
- 1st page displays all genres of music.
- Clicking a genre button triggers an API call to display playlists on the next page.
- Playlist page shows all playlists for the selected genre.
- Choosing a specific playlist triggers an API call to display its tracks.
- Track page displays all tracks of the selected playlist.
- Clicking on a track triggers an API call to play an audio preview.
- Implemented search functionality to search for genres.
- Each page features a menu for easy navigation.
- As this is the live website, you can check it by clicking this link [Spotiweb](#).

### **Pranav Consultant - Web Application** | *HTML5, CSS3, JS, React, Wix*

Sept 2020 – Present

- Led the development and design of the Pranav Consultant website, employing modern web technologies and responsive design principles.
- Implemented an intuitive and user-friendly interface, ensuring seamless navigation for visitors.
- Incorporated a secure user authentication system to enhance user engagement and personalized experiences.
- Developed dynamic content sections, allowing for easy updates and showcasing the latest services and offerings of Pranav Consultant.
- Integrated Firebase backend services to manage data efficiently and provide real-time updates for clients and visitors.
- Designed and curated engaging content to effectively communicate the expertise, services, and success stories of Pranav Consultant.
- Implemented social media integration, enabling users to share and interact with the content on various platforms.
- Optimized the website for search engines (SEO) to enhance visibility and accessibility across different search platforms.
- As this is the live website, you can check it by clicking this link [Pranav Consultant](#).

### **Talkr - Social Media App** | *Flutter, Dart, Firebase*

Dec 2021 – Apr 2022

- Developed an Android app using Flutter where users can sign up or sign in and enjoy the features of the app.
- Designed to allow people to share content quickly, efficiently, and in real-time.
- Users can share content that reaches anyone who visits their page or profile.
- Users can like posts, follow new users, and make friends.
- Users can search for new users to interact with.
- Users can edit their profile, including changing their profile picture.
